## EDUCATION

---

### University of Cebu – Main Campus

2022 – June 2026

*Bachelor of Science in Information Technology*

*Cebu City*

- Graduated **Magna Cum Laude** on June 9, 2026.
- Relevant Coursework: Systems Integration, Cloud Computing, Data Structures & Algorithms.
- Certifications: IBM AI Fundamentals, Introduction to Cybersecurity & Penetration Testing.

### Buanoy National High School

2021 – 2022

*Senior High School – STEM Strand*

*Balamban, Cebu*

- Specialization: Science, Technology, Engineering, and Mathematics.

## EXPERIENCE

---

### Opswerks

Remote

*Site Reliability Engineer Intern*

June 2026 – September 2026

- Underwent rigorous, fast-paced weekly training modules covering Linux, Git, Python, Docker, AWS, Kubernetes (K8s), and AWS EKS.
- Consistently achieved the strict 85% passing rate requirement across all technical training assessments.
- Leveraged newly acquired technical competencies to troubleshoot and resolve complex Site Reliability Engineering (SRE) problems.
- Resolved technical incidents during highly time-constrained, real-life simulator scenarios.

### Talleco.com Inc. JobTarget PH

Hybrid

*Data Scientist Intern*

January 2026 – May 2026

- Managed and analyzed extensive datasets to architect analytical dashboards in Amazon QuickSight, delivering strategic insights to executive stakeholders.
- Developed complex SQL queries and window functions in Amazon Athena to optimize dataset creation and validation for dashboard precision.
- Implemented automated Data Quality (DQ) checks using AWS Glue ETL jobs, focusing on Referential Integrity and Data Reconciliation.
- Architected anomaly detection dashboards to proactively identify and resolve "dirty data" issues, ensuring high data governance and integrity.
- Authored comprehensive technical documentation for data validation processes to ensure a trusted "single source of truth" for organizational databases.

### Alliance Software Inc.

On-site

*Jumpstart Program Trainee*

August 2025 – December 2025

- Trained rigorously by senior software engineers in developing production-ready codebases and architecture.
- Built a fully functional web application utilizing C-sharp and React.js adhering to enterprise software development principles.
- Managed the cross-functional development team through Agile Scrum sprints to ensure efficient execution and timely project delivery.
- Awarded the Certificate of Outstanding Performance, distinguishing myself as one of only three recipients out of all University of Cebu campuses.

## LEADERSHIP & PROJECTS

---

### **EnerGreen | AI-Powered and IoT-Based Green Energy Consumption System**

Cebu City, Philippines

*Lead Architect*

October 2025 – February 2026

- **Tech Stack:** Python, Node.js (Express), Vue.js, GCP (Cloud Run, Pub/Sub), Firebase (App Hosting, Firestore), HiveMQ.
- Architected a scalable and secure IoT data pipeline using HiveMQ as the MQTT broker to handle high-throughput sensor data.
- Engineered a secure proxy backend using Node.js and Express, deployed on Firebase App Hosting, to mask Cloud Run API endpoints and prevent direct exposure of internal microservices.
- Designed a fault-tolerant backend on Google Cloud Platform, utilizing Pub/Sub to ensure efficient data processing even during network spikes.
- Integrated LightGBM and Prophet AI models to provide predictive analytics on energy consumption patterns.

### **Philippine Society of Information Technology Students (PSITS)**

University of Cebu Main

*Chief Volunteer*

August 2023 – May 2024

- Manages a team of volunteers for extra curricular events in our university department college of computer studies.
- Served as the liaison for student inquiries, delivering prompt front-line support and cross-functional communication regarding institutional events and operational updates.
- Oversaw the logistics, tracking, and distribution of departmental uniforms and merchandise, ensuring organized inventory management and high-quality stakeholder service.

## SKILLS & INTERESTS

---

- **Technical Skills:** SQL, Python (Pandas/NumPy), AWS (Glue, Athena, QuickSight, EKS, VPC, S3, RDS, etc.), GCP (Google Cloud Platform), Linux, Docker, Kubernetes, AWS EKS, IT Troubleshooting, Microsoft Application (MS Word, MS Excel, Powerpoint).
- **Tools & Agile:** Jira, Confluence.
- **Certifications:**
  - IT Passport (PhilNITS)
  - TOPCIT Level 3 (IITP South Korea Standard)
  - Data Manipulation with Pandas (DataCamp)
  - AI Fundamentals (IBM)
  - KodeKloud (Linux Basics, Engineer L1; Git Beginners, Engineer L1-4; Python Basics; Docker Absolute Beginner, Engineer L1-4; AWS Basics, Engineer L1, EKS; Kubernetes Engineer L1)
  - Cisco Introduction to Cybersecurity.
  - Cisco Networking Basics
  - Foundations: Data Everywhere by Google
  - Intro to Penetration Testing and Red Teaming Training Course
- **Interests:** Data Analytics and Dashboard Reports, Anomaly Resolution, Emerging Cloud Technologies, Troubleshooting, Management, Cybersecurity, AI-Automation, Software Development.
